November 10, 2017

Dear Hiring Manager,

My name is Nathan Wynn; I'm an undergraduate Computer Science student at the University of Georgia with a minor in Spanish. I am interested in applying for the Summer 2018 DreamWorks Software Engineer Intern position.

DreamWorks' films have been an integral source of inspiration for me. These films have inspired me to pursue software engineering in an animation context, since I love how the two seemingly exclusive fields (animation and computer science) intersect to create fantastic stories and worlds. I am a top performer in my computer science classes, with a 3.91 major GPA, and I am passionate about searching for creative and elegant solutions to difficult problems. I am also passionate about animation. I have had the opportunity to take courses in 3D modeling and animation during my academic career. I believe my understanding of both the technical and creative facets of animation make me a potentially valuable asset for DreamWorks. Not only am I passionate about problem solving and animation, however, but I also love collaborating with my colleagues. My previous work experience with Turner Broadcasting System and with UGA have strengthened my communication, teaching, and speaking skills.

I would love to request a personal interview with you if you believe that I would be a good fit for this position. My phone number is (762) 436-9384, and you can also reach me at my email address: nww15119@uga.edu. If you would like any further information, please feel free to call or email me. Thank you for taking the time to review my application.

Sincerely,

Nathan W Wynn
